# Emerald Electricity Advisor

## In Home Display and Enciser App

### Features

- 95% Accuracy
- IP65 Compliant
- Monitor electricity usage in real-time
- Compatible with Enciser App
- FUV rated to withstand extreme weather conditions
- 1 Year Product Warranty

The Emerald Electricity Advisor creates energy-aware homes by connecting to the home's electricity meter and sending data directly to the Enciser App to track and report real-time electricity usage.

Connected directly to a electricity meter, the Emerald Electricity Advisor delivers instant insights and usage trends in easy-to-read data and graphs. With features like energy budget for setting goals and managing usage targets, and alerts property owners to take action when electricity usage levels are high, the Emerald Electricity Advisor empowers households to reduce energy costs while staying informed about their electricity consumption.

## Specifications

| Model | ENI-1050 |
| --- | --- |
